An aerial photograph of a city, likely in a developing country, showing a mix of urban development and agricultural land. A multi-lane highway runs diagonally across the lower-left portion of the image. The city is densely packed with buildings, many with red-tiled roofs. There are large industrial or commercial buildings with flat roofs on the right side. In the foreground and middle ground, there are patches of green and brown fields, some of which appear to be under cultivation. The overall scene suggests a city where agriculture is still integrated with urban growth.
